

Best LIFE-Environment Projects 2012

The EU Member States represented on the LIFE Committee, together with the LIFE Unit, have identified the 5 Best LIFE-Environment projects completed during 2012.

17 Best LIFE Environment Projects

This 10th Best LIFE-Environment Projects' exercise, follows on from a lengthy identification and evaluation process based on a set of best practice criteria, developed by EU Member States in collaboration with the European Commission.

The objective of the exercise is to help improve the dissemination of LIFE project results by clearly identifying those projects whose results, if widely applied, could have the most positive impact on the environment. The following projects (in chronological order) have been selected by the Member States as "Best of the Best" LIFE Environment projects 2012:

The "Best of the Best" LIFE Environment Projects 2012

IWPM

IWPM - Integrated Wastewater Purification Management
